Claims 2-8 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to nonelected inventions; there being no allowable generic or linking claim. Applicant timely traversed the restriction requirement in the reply filed on April 12, 2007.

Newly submitted claims 9-15 are directed to an invention that is distinct from the invention originally claimed for the following reasons:

The originally examined claims directed to an adhesive composition is now defined as a layer for an adhesive article with a stretchable backing layer which was originally presented as claims 3 and 6 designated as Group III in the restriction requirement mailed March 6, 2007. The adhesive composition was elected in the response filed April 12, 2007.

Originally examined claim 1 drawn to the adhesive composition containing the caprolactone-modified epoxy resin as the special technical feature does not make a contribution over the prior art of Japanese Patent No. 2002-146319 as explained on page 2 of the restriction requirement. Consequently, there is a lack of unity between claim 1 and new claims 9-15 denoting the adhesive article with a stretchable backing layer is valid.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 9-15 are withdrawn from consideration as being directed to a non-elected invention (37 CFR 1.142(b) and MPEP § 821.03).

Art Unit: 1712

The amendment filed on September 19, 2007 is not fully responsive to the non-Final rejection mailed April 30, 2007 for the reasons espoused hereinabove (37 CFR 1.111). Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
